

REFERRAL COURSE DETAILS FOR CRUISE SHIP VISITORS

Please read these details and contact us with any questions you have.

The Open Water Diver Course has 3 main components:

1. Knowledge Section.

2. Confined Water Session.

3. Open Water Dives.

To complete your open water course while cruising you need to complete the first two sections at home, your home instructor then "refers" you on to dive shops during your cruise.

Course Structure.

You arrange to complete your dives in 2 ports of call, dives 1 + 2 can be done in a single port, dives 3 + 4 in a second port.

Arranging your Schedule

You will need to make your own arrangements with dive centres in your ports of call, you will need to book early as training places are always limited.

Course Costs

Each dive school you visit will have its own cost structure, remember to check what is included in the quoted price.

We can complete dives 1 + 2 or dives 3 + 4 with you.

We include all necessary dive equipment and transport from the cruise ship.

For dives 3 + 4 we also include the final certification fee.

Required Paperwork and Pre Requisites. Both your Instructors will require these.

For a PADI referral you will need the following.

1. A copy of the medical statement you completed at the start of your course.
2. A copy of your doctors sign off if you required one (ANY "YES" answer on a medical form).
3. A copy of your eLearning completion (if academics were done by eLearning).
4. Instructor sign off **IN YOUR PADI TRAINING LOGBOOK** for your academics and confined water sessions.

We prefer that you email copies of the above prior to arriving on island.

For a referral other than Padi (SSI, NAUI, PDIC, IDEA)

Your originating Instructor will provide you with a paperwork pack, a copy of which needs to be emailed to us as soon as possible after your booking.

How to Book

Please contact us with the dates you will be visiting, once we have agreed availability, we will then ask for your deposit by Credit Card and for copies of your documents. Please book early, course places are limited.
